

Pickaway-Ross
Career & Technology Center

Sept. 28, 2020

Dear School Community,

Pickaway-Ross Career & Technology Center is committed to the safety and health of our students and staff members. We want to inform you that we have recently received information about at least one confirmed case of COVID-19 in a student or staff member at Pickaway-Ross. Cleaning and disinfecting of the exposed locations have been completed.

Pickaway-Ross Career & Technology Center will remain open at this time. We are working closely with the Ross County Health District and Pickaway County Health Department and anyone identified as a close contact will be notified by the health department as a part of COVID-19 investigation.

How You Can Help

Be proactive about reducing the number of interactions that students and staff have with one another by practicing social distancing (staying at least 6 feet apart) to limit the spread of COVID-19. In addition to physical distancing, these important tools help to prevent the spread of COVID-19:

- Stay home when you are sick.
- Wear a mask or face covering while in public places or if people who don't live with you must visit your home.
- Avoid unnecessary gatherings with people who don't live in your home.
- Avoid sharing food, drinks, or utensils.
- Wash your hands often with soap and water for at least 20 seconds. Sing the Happy Birthday song twice to help know when it has been 20 seconds. If soap and water are not available, use alcohol-based hand sanitizers that contain at least 60% alcohol.
- Cover your coughs and sneezes with a tissue, and then dispose of the tissue and wash your hands immediately. If you do not have a tissue, use your sleeve, not your hands, to cover coughs and sneezes. If you are experiencing cough or congestion, consider staying home and seeking medical care.
- Regularly clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipes. The Centers for Disease Control and Prevention recommends cleaning of frequently touched surfaces with household cleaners and EPA-registered disinfectants that are appropriate for the surface, following label instructions. A simple bleach solution may also be utilized.

If you have any questions, contact Jason Vesey at (740) 642-1223 or the Ross County Health District at (740) 779-9652. Thank you for helping to keep people safe and to slow the spread of COVID-19 in our community and school.

Sincerely,
Jason Vesey
Director of Secondary Education
